1. General Information

Introduction

The State of Qatar is committed to addressing the growing demand for public services, and in doing so is seeking innovative ways in which to deliver the required infrastructure. The Qatar National Vision 2030 highlights the significance of developing and enabling the private sector to play a key role in achieving the long-term goals and outcomes for the country, in particular through the use of public private partnerships (“PPP”) as means to develop its infrastructure and delivery of services.

The Ministry of Education and Higher Education (the “**Authority**”) is undertaking the implementation of the Qatar Public Private Partnership Schools Development Program (“**PPP Program**”) in line with Qatar National Vision 2030 on behalf of the State of Qatar. The Authority has appointed Ashghal as its nominated representative for the procurement, design and construction phase of the PPP Program. The PPP Program consists of the development of 47 schools for varying stages to be delivered over the next 5 years. The PPP Program is divided into 4 four packages (see Figure 1 below).

This EOI relates to Package 3 for which Ashghal has identified an opportunity for a private investor to participate in the design, build, finance, operation, maintenance and transfer (“**DBFOMT**”) of fourteen (14) new schools consisting of 4 secondary schools, 5 preparatory schools, 3 primary (grades 5 and 6) schools, 1 shared school and 1 special needs school (the “**Project**”). The Project reflects the State of Qatar’s aim to cater to an ever rising demand in the education sector driven by growth in the school-going population, while fulfilling a key policy objective of improving the quality of education for Qataris.

1.1 Qatar PPP Schools Package 3 Project

The Project will deliver fourteen (14) schools which are in line with the education objectives mentioned in the Qatar Second National Development Strategy 2018-2022. Some of the key policy objectives this program aims to fulfil are as follows:

- to cater to ever rising demand in the education sector driven by growth in the school-going population;
- supporting human and social development;
- supporting the urgent need to build more capacity and expertise on project implementation;
- improving the quality of education for Qataris to reach international standards;
- reducing the inefficiencies in the Qatari educational system;
- increasing job satisfaction in the education sector in Qatar; and
- promoting private sector participation in the education sector.

The Authority is looking for a capable private sector developer and operator with international or regional experience in developing and managing education and real estate projects similar to the Project.

The private sector will be responsible for the design, build, finance, operation, maintenance and transfer of the Project. Ancillary operations such as cleaning, ICT infrastructure, security, and

other facility management (“**FM**”) services will also be included in the scope of the Project and the private sector will be responsible for providing such FM services for an agreed upon duration for the schools. Notwithstanding this, all teaching and school administration activities will remain the responsibility of the Authority. The Authority will be responsible for managing the schools’ administration and educational curricula and will appoint all teaching and administrative staff.

- Under the proposed structure, a regime of availability and performance monitoring will be applied where deductions will be made from the monthly service payments if the availability standards and performance KPIs set out in the PPP Agreement are not met by the Project Company. The details of such regime will be provided at a later stage of the procurement process of the Project.
- In all cases it is expected that the Project Company will be responsible for the implementation of the Project and at the end of the contract term, any Project assets that may be owned by the Project Company shall be transferred to the Authority.
- The PPP Agreement is expected to be supported by a letter of support addressed to the lenders provided by the Ministry of Finance (“**MoF**”) for the payment of any sum of money that the Authority is liable to pay to the Project Company (including any payments owing as a result of termination of the PPP Agreement).
- The Project Company will be responsible for securing financing (debt and equity) for the Project.
