This Prequalification (PQ) document consists of two components:

1. User's guide
2. Prequalification procedures and work requirements

Prequalification is a step in the procurement route that shall ultimately lead to the invitation to Tenderer(s). Procurement is the stage in a project's life cycle when it progresses from inception and feasibility through to award of the contract. The scope of work in this prequalification document is not final and may be subject to change in the tender documents. **Figure 1** shows the procurement route that will be adopted for the projects.

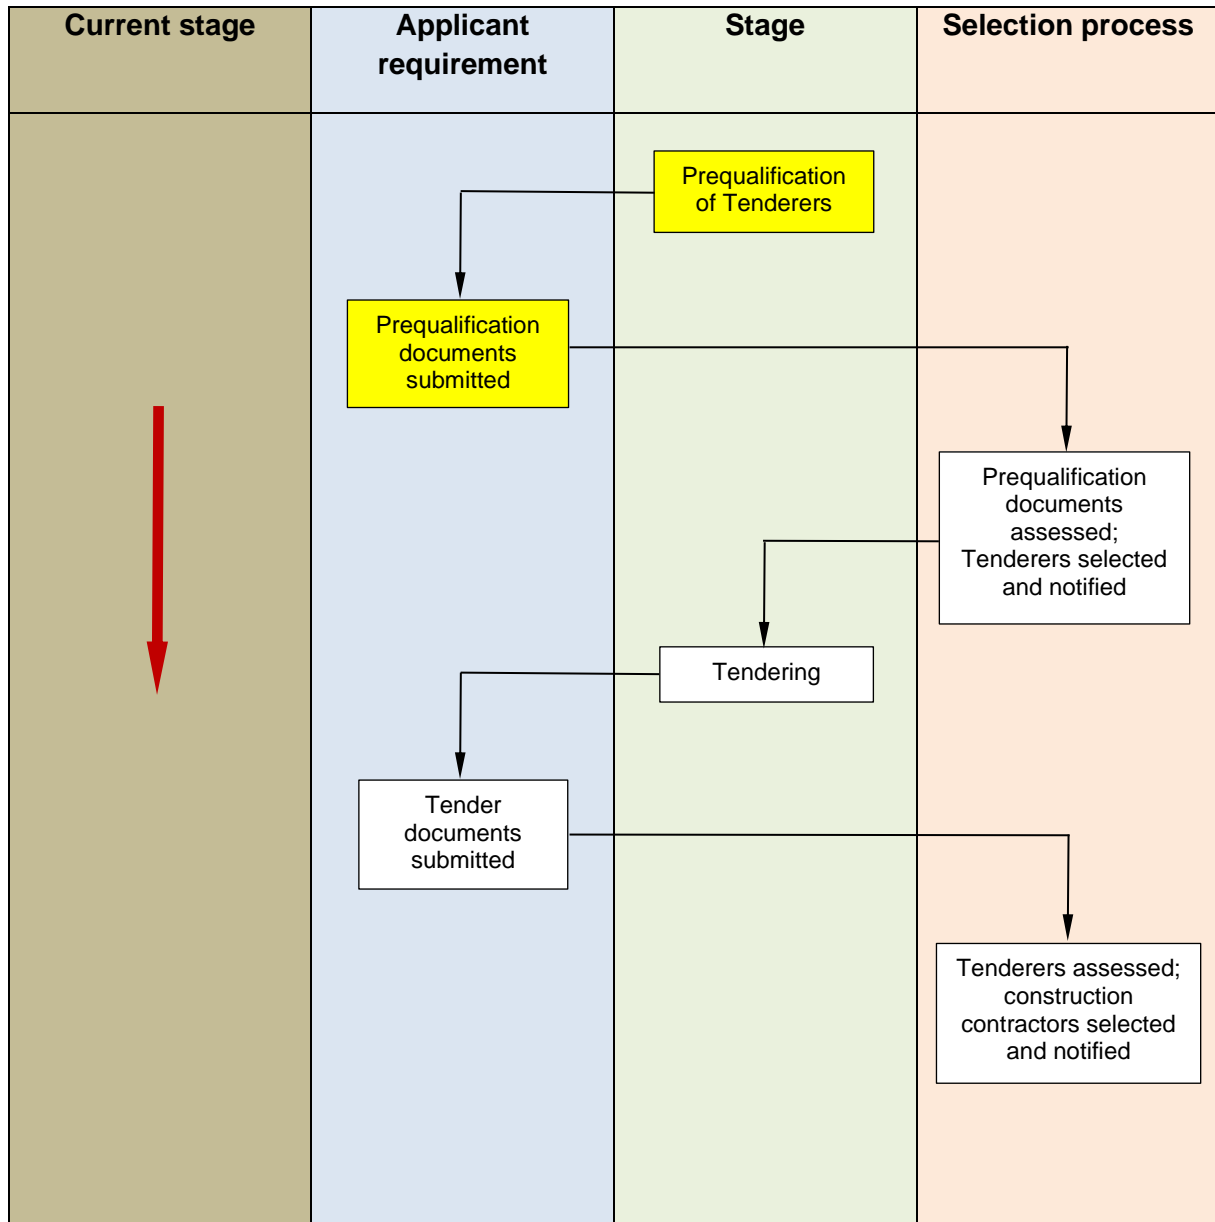

Figure 1: NDOD & SOW single stage submission procurement route

The purpose of the prequalification process is to provide the basis for the Public Works Authority (the Authority), also known as ASHGHAL, to select a short list of competent companies or joint ventures (the 'Pre-qualified Applicants') for invitation to tender for the NDOD and SOW Tunnels projects. Individual select list of tenderers will be prepared for each contract, and tenderers may be included on more than one list. This Prequalification document is being made available to all interested parties with experience in the relevant fields and have satisfied certain eligibility criteria set out in the associated application form. It sets out the information an Applicant must provide to the Authority as an initial stage in the procurement process.

Note, individual contracts within the projects may be tendered at different times (such as Contract 2 before Contract 3). Similarly, tenderers will also have options to be considered for all contracts or for a selection of contracts on each project.

Prequalification centres on evaluating the Applicants based on the following criteria:

1. Eligibility
2. Licenses and registration
3. Joint Tendering Agreement
4. Historical contract non-performance record
5. Financial status
6. Company experience
7. Project assurances
8. Corporate management approach
9. Resources, plant and equipment
10. Contractor's presentation

Consequently, a previous prequalification for the Authority's projects shall not guarantee the automatic prequalification for this project.

The Works Requirements in Part 2 of this document provides the scope of works, including drawing(s) showing the main components of the project.

Section III - Qualification Criteria

A. General

This section identifies the:

- Qualification criteria
- Compliance requirements, and
- Prequalification Evaluation Methodology
- Associated prequalification forms

that the Authority shall use to evaluate the prequalification applications.

To be pre-qualified an Applicant firm or JV must demonstrate to the Authority that it substantially satisfies the requirements regarding experience, personnel, financial position and litigation history, specified here.

The “Main Contractor” is defined as the chief Contractor who has a contract with the Employer or Owner of a project and has the full responsibility for its completion. A Main Contractor undertakes to perform a complete contract and may employ (and manage) one or more Sub-Contractors to carry out specific parts of the Contract.

The “Lead Partner” is the party nominated by the JV as the “Lead Partner.”

NOTE: ‘nature and complexity similar to those of the Works in the proposed contract’ shall be interpreted as follows:

- **Similar nature** means large-diameter tunnels, deep shafts (temporary/permanent) and associated hydraulic structures (backdrop structures, cross connections)
- **Similar complexity** means mixed geotechnical, civil, structural, tunnelling using tunnel boring machines (TBMs) and all temporary and permanent works related to the construction of deep tunnels, drive/reception shafts together with hydraulic vortex/cascade chamber and operational access shafts.
- **The minimum value** that will be taken into consideration is either the total contract value, when the Applicant was acting as sole contractor, or the share of the total contract value corresponding to its share of the **JV** participation, when the Applicant was member of a JV.
- **The last 10 years** shall be understood as the period: 1st January of the year – up to the deadline for submission of the Applications.
- **References from owners of all D-B projects of a similar nature and complexity** to the proposed contract completed within the last ten years shall be attached.

The applicant firm or joint venture shall meet the following minimum criteria, which supplement the compliance requirements listed in the Compliance Table in Sub-section C:

B. Qualification Criteria

The Applicant shall meet the following criteria, which supplement the compliance requirements listed in the Compliance Summary Table in Section III, Sub Section B.

1. Eligibility (Series No. 1)

- (a) Applicants eligible to tender shall meet the criteria list in the Compliance Summary Table. In Section III (B).

2. Licences and Registrations (Series No. 2)

- (a) Applicants should also be registered in one of the professional or trade registers in the country of their principal place of business and relevant to the nature of this contract.
- (b) Applicants should note that in addition to successful prequalification, they will be required to meet registration requirements of the State of Qatar in order to tender.

3. Joint Tendering Agreement (Series No. 3)

- (a) Where an Applicant intends to form an Association of companies, the Applicant shall provide evidence of such association by attaching a Pre-Tendering Agreement for Joint Venture (Form DC – 3.1) to establish such association to Form ELI – 1.1.
- (b) Where an Applicant represents an existing commercial association of companies, the Applicant shall provide evidence of such association by attaching the evidence to Form ELI – 1.1
- (c) The points noted below summarises the requirements for an Association, and the parties within such Association, with reference to the other Subsections of Section III:
 - i. Qatari partners must be Premium and/or Grade 1 Civil Engineering Contractors;
 - ii. The Association may comprise a maximum of 3 parties;
 - iii. Each individual party in an Association may only participate in one Applicant entity;
 - iv. In the case of a successful tender, the form of agreement, shall be signed so as to be legally binding on all parties;
 - v. One of the parties shall be nominated as being in charge (the “Lead Partner”), and this authorisation shall be evidenced by submitting a power of attorney signed by legally authorised signatories of all the parties and attaching this to Form ELI – 1.1;
 - vi. The Lead Partner shall be authorised to receive instructions for and on behalf of any and all partners of the entity;
 - vii. All parties of the Association shall be liable jointly and severally for the execution of the contract in accordance with the contract terms;
 - viii. A copy of the agreement entered into by all parties shall be submitted with an Applicant’s tender. Alternatively, a Pre-Tendering Agreement for Joint Venture (Form DC – 3.1) to execute an agreement in the event of a

successful bid shall be signed by all partners and submitted with the Applicant's tender, together with a draft of the proposed agreement.

- ix. Refer also to the criteria set out in the Compliance Summary Table in Section III, for the combined parties, and each individual party of an Association.
- x. The Authority reserves the right to disqualify an Applicant, if the Applicants Association contains deviations from the above criteria.

4. Historical Contract Non-Performance (Series No. 4)

- (a) History of Non-Performing Contracts means the Applicant shall provide accurate information that non-performance of a contract did not occur within the last five years prior to the deadline for application submission based on all information on fully settled disputes or litigation. A fully settled dispute or litigation is one that has been resolved in accordance with the dispute resolution mechanism under the respective contract and where all appeal instances available to the Applicant have been exhausted.
- (b) Litigation History: The applicant shall provide accurate information on any current or past litigation or arbitration resulting from contracts completed or under execution by him over the last five years. A consistent history of awards against the Applicant or any partner of a joint venture may result in failure of the application.

5. Financial Status (Series No. 5)

- (a) Average annual turnover as Main Contractor (defined as billing for works in progress and completed) over the last five years of QAR 1,800,000,000.00 equivalent.
- (b) The Applicant shall demonstrate by means of bank comfort letters or other financial references that it has access to, or has available, liquid assets, unencumbered real assets, lines of credit, and other financial means sufficient to meet the construction cash flow for the contract for a period of four months, estimated as not less than QAR 100,000,000 per month equivalent, taking into account the Applicant's commitments for other contracts.
- (c) The audited financial statements for the last five years shall be submitted and must demonstrate the soundness of the Applicant's financial position, showing long-term profitability. Where necessary, the employer will make inquiries with the Applicant's bankers.

6. Company Experience in the similar scope of works (Series No. 6)

- (a) The Applicant shall provide a description of at least three Design Build projects of similar scope to the NDOD or SOW stormwater tunnelling system requirements undertaken within the past ten years.
- (b) The Applicant shall provide a description of at least three Design Build projects demonstrating a similar scope to the NDOD or SOW connection structures (e.g. hydraulic backdrop and or Cascade type structures, cross connections, drive and reception chamber) within the past ten years.
- (c) The Applicant shall demonstrate experience in the following:
 - i. Micro-tunnelling using manned, steerable, guided, articulated micro-tunnel boring machines (MTBM) with a jacked pipe diameter of up to

- 3,000 millimetres (mm) and drive lengths of a minimum of 500 metres (m), total length up to 30 kilometres (km)
 - ii. Micro-tunnelling excavation in weak rock conditions (maximum strengths of 45 megapascals [MPa]) and with a high groundwater table
 - iii. Construction of work shafts down to depths of 60 m with high groundwater table
 - iv. Bored tunnels with a minimum finished internal diameter of 3,000 mm and with TBM drive lengths of a minimum of 5.0 km, total length up to 20 km
 - v. Tunnels with 30 m of cover and with a similar hydrostatic head
 - vi. Tunnels excavated using pressurised face TBMs, either earth-pressure balance or slurry TBMs
 - vii. Projects requiring construction of work shafts and/or permanent shafts with a minimum inside diameter to 10,000 mm and a depth of 30 m
 - viii. Applicant's BIM experience: evidence of compliance with the following criteria:
 - Organization experience in delivering projects to ISO 19650, BS/ PAS 1192, ISO 11442, ISO16739.
 - Commitment to handing over of native data, and data exchange security.
 - Description of Applicant's Common Data Environment (CDE) and delivery on projects.
 - Agreement with major software vendors.
 - Organization hardware standards for BIM delivery.
 - Evidence of experience and understanding of Authority's BIM requirements.
 - Evidence of Design and Build project experience delivering to BIM and asset data requirements
- (d) Evidence of a successfully completed project in the GCC Region of similar scope, value and complexity, within the past five years.
- (e) Additional score points will be awarded for project experience exceeding the minimum criteria.

7. Project Assurances (Series No. 7)

- (a) The Authority requires that all work undertaken on its behalf is carried out safely for all parties. The Applicant must therefore demonstrate that it will allocate resources to enable it to fulfil its statutory obligations for Health and Safety. In this regard, the Applicant shall successfully submit an existing written Health & Safety Policy focused on underground construction related activities and shall provide the information requested on Form HSE – 7.1.
- (b) The Authority additionally is committed to ensure a high quality of life for the State of Qatar's citizens by protecting the environment and by delivering its services in a way that respects the earth's natural ecosystems. The Authority aims to work with its contractors and suppliers to help them improve their environmental sustainability performance and ensure that, when working for the PWA, they adopt equivalent environmental standards. The Authority therefore expects its contractors to show evidence of their commitment to the environment by having an

environmental management policy and sustainability policy which has been endorsed, at the highest level in the company. As a minimum, the Applicant must successfully demonstrate that it has an established and written Environmental Management Policy and Sustainability Policy and provide the information requested on Form HSE – 7.1.

- (c) The Authority expects its contractors to demonstrate their commitment to maintaining a rigorous Quality Management Program, which is endorsed at the highest level in the company. As a minimum, the Applicant must provide evidence of any quality certifications that it possesses and to provide the information requested on Form QM – 7.2.

8. Management Approach (Series No. 8)

- (a) This series examines the Applicant's approach to the management of similar contracts. The Applicant is therefore required to answer the management approach questions included on Form MA – 8.1.

9. Resources, Plant and Equipment (Series No. 9)

- (a) The Applicant is to provide evidence that it possesses, or has access to, sufficient resources, plant and equipment to deliver the project for which seeks Prequalification. In this regard, as a minimum the Applicant must provide the information requested on Form RS – 9.1.

10. Contractor's Presentation (Series No. 10)

- (a) The Applicant will be invited for a presentation at the Authority's premises after receipt of the prequalification documents. The presentation will take place two (2) weeks before the submission closing date. The attendance is mandatory and shall be presented by the staff of the Applicant with the following experience
- a. Technical Director Tunnelling
 - b. Project Director
 - c. Construction Manager
- (b) The presentation❖ shall not exceed 10 minutes and shall contain the following components
- a. Three unique risks to a project of similar size. The following risks are not considered unique:
 - i. Geotechnical
 - ii. Segmental lining production
 - iii. Transportation logistics
 - iv. Stakeholder management
 - v. Utility and traffic diversions
 - b. Constructability value that can be added to the project.
 - c. Company experience in solving problems in similar projects
- (c) The contractor is advised that the content of this presentation is only limited to the requested information. There is no need to include company background information or introductions to the staff presenting.

❖ Note, depending on the pandemic situation at the time of interview, Microsoft Teams or WebEx may be permitted for the 10-minute presentation.

There will be a concluding 10-minute Question and Answer session - this is expected to be a 2-way process where the contractor can engage with the Authority on the project.

Form DC – 3.1

PRE-TENDERING AGREEMENT FOR JOINT VENTURE

THIS AGREEMENT is entered into this ___ day of _____ 20__

BETWEEN:

- (1) **[NAME]** of [Address];
- (2) **[NAME]** of [Address]; and
- (3) **[NAME]** of [Address].

Each singly a “Party” and together the “Parties”.

RECITALS:

A. The Parties wish to co-operate in a joint venture (hereinafter the “Joint Venture”) for the exclusive purpose of tendering for and performing a contract (hereinafter the “Contract”) in connection with the **Design & Build (DB) Contract for New District of Doha Contracts 2 & 3 – Tunnels – CP796/2 & CP796/3 & Contract for the South of Wakrah Contracts 2 & 3 – Tunnels – CP803/2 & CP803/3** (hereinafter the “Project”), to be appointed by the **Public Works Authority** (hereinafter the “Authority”) in accordance with the following terms and conditions.

It is hereby agreed as follows:

Clause 1

The Parties hereby associate in Joint Venture exclusively for the purpose of jointly preparing a submission and tendering in the name ofJoint Venture or in the sole name of.....(as will be acceptable to the Authority) and to jointly perform the Contract in the event that the Tender is successful.

Clause 2

The Parties engage themselves to pursue the object of this Agreement on the basis of mutual exclusivity and undertake that they or their affiliated companies will not participate with any third parties in tenders for the execution of the Project. This clause shall survive the expiry or termination of this Agreement.

Clause 3

The Joint Venture will be backed by the full resources of the Parties who will be jointly and severally responsible for the proper fulfilment of the Contract, regardless of their respective shares in the Joint Venture. Notwithstanding the Parties’ joint and several liabilities towards the Authority under the Contract, the Parties’ liabilities as between themselves shall be in accordance with the participation percentage stated in Clause 6 hereto.

Clause 4

It is expressly agreed that the relationship constituted by this Agreement is that of a Joint Venture limited as herein stated, and not that of a partnership.

Clause 5

All decisions regarding the Tender, amendments thereof and execution of the Contract shall be taken by unanimity and recorded in writing between the Parties.

Clause 6

The governing principles of the Joint Venture referred to in Recitals A of this Agreement, which shall be reflected in the Joint Venture Agreement are:

- All rights, interests, liabilities, obligations and risks and all profits or net losses arising out of the Contract and Work Order(s) shall be shared or borne by the Parties in such proportion as is set out in the Joint Venture Agreement.

The participation of the Parties will be as follows:

..... percent (.....%)..... (Joint Venture Member (1))

..... percent (.....%)..... (Joint Venture Member (2))

..... percent (.....%)..... (Joint Venture Member (3))

- The Joint Venture Agreement may create a contractual, Non-Incorporated Joint Venture, or an Incorporated Joint Venture company. In the case of a contractual, non-incorporated Joint Venture, the Parties shall be jointly and severally liable to the Authority for the Joint Venture's performance of its obligations. In the case of a Joint Venture company, the Parties shall be obliged to provide the Authority with acceptable guarantees of the Joint Venture's performance of its obligations.

Clause 7

Immediately upon being awarded the Contract, the Parties shall enter into and sign a final Joint Venture Agreement in order to determine in detail the contractual stipulations governing their co-operation as joint ventures. The Authority reserves the right to audit how the Joint Venture is operating at any stage.

Clause 8

This Agreement shall terminate on any of the following occurrences:

- (a) Failure of the Parties to submit a bid to the Authority, or
- (b) The Tender is unsuccessful, or
- (c) Upon expiry of the validity period of the Tender unless extended by mutual agreement of the Parties, or
- (d) The conclusion of the Joint Venture Agreement as per Clause 9 hereof, or
- (e) The Contract is terminated by the Authority.

The termination of this Agreement in case of occurrence of any of items (a) to (e) of this Clause 8 will not become effective until all securities provided by the Parties for the Tender, if any have been paid to the Authority.

Clause 9

The Parties shall not be entitled to sell, assign, or in any manner encumber their interests or any part thereof in this Joint Venture, without obtaining the prior consent of the Authority.

Clause 10

Each of the Parties agrees to place at the disposal of the Joint Venture the benefit of its individual experience, technical knowledge and skill and shall in all respects bear its share of the responsibility and burden of performing the Joint Venture's obligations under the Contract including the provision of information, advice, personnel and any other required resources.

Clause 11

Each Joint Venture Member shall participate fully in the performance of the Joint Venture's obligations, whether as a Party to the Joint Venture Agreement in the case of a contractual, non-incorporated joint venture or as a shareholder in the case of a joint venture company.

Clause 12

Any bonds, guarantees or indemnities required by or arising out of the Contract or otherwise required for the business of the Joint Venture shall be procured by the Joint Venture and the cost of such bonds, guarantees or indemnities shall be borne by the Joint Venture.

Clause 13

Notwithstanding anything to the contrary, this Agreement shall not be considered as establishing an agency or partnership between the Parties or limiting the power or rights of the Parties each to carry on its separate business for its sole benefit. However, the Parties shall at all times act in good faith and to use their best endeavours to safeguard and further their common interests in relation to the Tender and the Contract.

Clause 14

This Agreement shall be governed by and construed in accordance with the Laws of the State of Qatar and shall be subject to the jurisdiction of the courts thereof.

This clause shall survive the termination or expiry of this Agreement.

AS WITNESS WHEREOF the parties have entered into this Agreement on the date first written above.

Organization BIM experience, BIM standards, Model management

This section provides an overview of the Tenderer overall experience with BIM, capabilities demonstrated on previous projects and provides an insight into the intentions for their future development with BIM.

11	Has your organisation previously utilised BIM on projects? If yes, for how long has your organisation been using BIM?
12	What does BIM mean for your organisation (business value, opportunities, benefits, risks)?
13	Have there been any changes to your project deliverables with respect to BIM?
14	How have your contract agreements been influenced by BIM?
15	What is your current status and future plan for BIM rollout?
16	Has your organisation adopted BIM protocols or procedures and established documentation to assist implementation? If Yes, please describe the documentation which has been developed and where possible list document types and content headings. If No, explain why you do not work to a BIM standard?
17	What measures do you have in place to ensure adherence with your BIM standard and how do you demonstrate this (for example quality assurance or audit processes)
18	Are you prepared to comply with an imposed BIM Standard? If No, please explain why.
19	<p>Has your organisation experienced any of the following standards within a project. If Yes, please summarise your experience of their use. If No, explain your current awareness of them and, if proposed, your plans to incorporate them or reasons why you believe they are not required.</p> <ul style="list-style-type: none"> • ISO 19650-1 • ISO 19650-2 • Information Protocol to support ISO 19650-2 • ISO 11442 • ISO 16739 • ISO 55001 • PAS 1192-3 • BS 1192-4 • PAS 1192-5 • Uniclass 2015

20	Explain your approach to managing Project Information Models development (where applicable) and whether this follows an iterative process.
21	Do you understand the 'Level of Information Need' required at each project delivery stage?
22	In a brief paragraph please explain your experience (if any) with linked, attached and embedded attribute data within 3D models.

Organization BIM experience – BIM resource assessment

This section provides an overview of the key BIM personnel within the project team.

23	Who leads BIM in your organisation at strategic and operational level?			
24	Has your organisation implemented a BIM staff training programme? If Yes, provide details below (including any planned training)			
	Type of training	Date	Number of delegates	Training Organization
