**Pre-Qualification For The Procurement Of Design, Build, Operate And Maintain
Contract For Musaimeer Pumping Station And Outfall**

(Project Code : IA/ 14 -15/C/015/G)

INVITATION TO PRE-QUALIFY

The Public Works Authority of the State of Qatar (ASHGHAL) wishes to select a short-list of competent companies for invitation to tender for a contract to Design, Construct and Operate Musaimeer Pumping Station and Outfall.

The Authority is seeking proposals from Applicants (where Applicants can be individual firms, consortia and joint ventures) to demonstrate the capability, experience and understanding that is required to perform these tasks.

CONTRACT SCOPE OF WORKS:

The Contractor shall provide services for the Design and Construction of Musaimeer Pumping Station and Outfall, together with operation and maintenance of the facilities for an initial period.

The pumping station will be located approximately 1km south of Hamad International Airport and will provide surface water and ground water drainage for southern Doha. It is required to discharge a continuous ground water flow of approximately 2m³/s, increasing up to 20m³/s when surface water flows are present. The pumping station will discharge to the sea via marine pipelines which are expected to extend to approximately 7km from the coastline. The scope of works includes the proposed pumping station and the proposed marine outfall.

Design and Construction is required to be completed within a period of 3 years. The contract will also include initial operation and maintenance of the new pumping station and outfall for a further 3 years.
